# *Welcome to our Teacher Training*

I first encountered yoga as a young child, watching my mother practice in our garden. However, it wasn't until 2001 that yoga truly became a significant part of my life when I discovered Hot Yoga. As I immersed myself in this transformative practice, I began to wonder: could I turn my passion for yoga into a career?

Fast forward 25 years, and I've spent the past 21 years teaching yoga classes and 14 years leading teacher training programs. Throughout this journey, I have navigated the highs and lows of studio ownership and hold dear the memories of every trainee teacher I've guided on their yoga paths.

At Surrey Yoga and Pilates (SYP), my mission is to continue offering exceptional training led by subject matter experts. We are dedicated to equipping emerging yoga teachers with the practical skills they need to achieve professional excellence while fostering a genuine love for their practice. Read on to discover what makes our training program truly unique!
